

NVQ In Warehousing & Storage

Level 2

Who would benefit from the NVQ?

The NVQ Level 2 is aimed at anyone working in a Warehousing role within any type of organisation. As part of a suite of products covering the whole of the logistics industry, the NVQ Level 2 deals with all of the core activities within the Warehousing role including managing receipt, storage and dispatch of loads, auditing stock levels and records and quality maintenance as well as soft skills such as health and safety, customer service and managing workloads.

What does the Warehousing and Storage NVQ Level 2 cover?

The NVQ is designed to cover the full spectrum of the Warehousing role for companies both large and small. It is made up of a series of compulsory units that cover each of the key areas of Warehouse and Storage. To this, optional units can then be added enabling the NVQ to be tailored to a qualification uniquely relevant to the learner's role. The specific units are shown below.

Mandatory Units

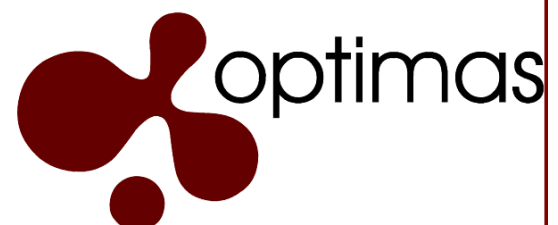

- Contribute to effective working relationships.
- Contribute to the maintenance of health, safety and security in the workplace.

Additional Units

- Operate specialised plant and machinery to performance requirements.
- Lift, transfer and position loads.

Optional Units

- Receiving loads and dispatching goods.
- Placing goods in storage
- Assemble orders for dispatch
- Maintain hygiene standards in handling and storing goods.
- Maintain the safety and quality of goods.
